1. Executive Summary

NyxiumPad is a decentralized launchpad built on the Polygon network, designed to empower Web3 startups with seamless token launches, presales, and community-driven growth. At its core, the Nyxium (NYX) token fuels the ecosystem, enabling staking, governance, and access to platform utilities.

With a fair, community-first approach, NyxiumPad integrates gamified participation (airdrops, quizzes, and badges) to foster engagement while ensuring long-term sustainability through a limited supply of 1 Million NYX token.

7. Airdrop Mechanics

7.1. How to Earn NYX:

Users accumulate points via:

- Daily Check-ins (1x/day)
- Fun Quizzes (10 questions/24h)
- 3-Digit Code Challenges (10 attempts/day)
- Farming Boosters (Points → NYX at TGE)
- Badge Multipliers (1x–1.75x bonus)

7.2. Badge System:

In the NyxiumPad ecosystem, badges are premium point multipliers that can be purchased exclusively through the official webApp. They are not NFTs, not earned through activities, and cannot be transferred. Their sole purpose is to boost the number of points a user holds, which will directly impact the amount of NYX tokens received during the Token Generation Event (TGE).

BADGE	MULTIPLIER	DESCRIPTION
Silver	1.2x	Entry-level badge for moderate point boost
Gold	1.5x	Mid-tier badge offering stronger boost
Diamond	2.0x	Highest-tier badge with maximum multiplier

SILVER BADGE	GOLD BADGE	DIAMOND BADGE
		

- Badges can only be purchased via the NyxiumPad's webApp
- They may be available as part of limited-time booster packs
- Users can only hold one badge at a time
- The highest-tier badge always takes effect

7.2.1. 📈 Why Buy a Badge?

Badges significantly increase your NYX allocation at TGE by multiplying your total points.

Example:

If you've earned 10,000 points:

- *No badge = 10,000 points*
- *Silver = 12,500 points*
- *Gold = 15,000 points*
- *Diamond = 20,000 points*

7.2.2. 📌 Important Notes:

- 🚫 Badges are not NFTs
- ↻ You can upgrade your badge anytime via the webApp
- Strategic users may buy higher-tier badges closer to TGE to maximize returns

8. Funding Model

NyxiumPad sustains development through:

- wNYX token sales (pre-TGE)
- Badge/Booster purchases
- Transaction fees (post-launch)

9. Conclusion & Call to Action

NyxiumPad is redefining decentralized fundraising with a community-centric, transparent, and engaging model.

Together, we build the future of Web3.
